## NEW YORK UNIVERSITY

Welcome to New York University's Online Admissions Application System!

If you have not previously used this system, please register by creating a new, unique ID – the Application User ID. **Please do not use any existing NYU N# or NetID or NYU email for this application if you have one.** This will only be a temporary ID used to access your online admissions application. You will be able to provide an NYU email address for correspondence after you've created your Application User ID.

Note: Passwords must be 8 characters long and contain at least one special character (!,@,#,\$, etc) and one number (0-9).

When you get a message that indicates that the user could not be authenticated, this means that you have provided an incorrect userid/password. Password values are case sensitive. Make sure that you do not have extra characters in the userid/password fields.

If you are unable to login, please make use of the 'Forgot your userid?' and 'Forgot your password?' functionality on the login page. If you attempt to retrieve your userid or reset the password and the system is not able to locate your email address, this means that the system has temporarily locked out your account for security reasons. In this case, do not attempt to login but reset the password using the 'Forgot your password?' functionality on the login page after 5 minutes

For technical issues, email [admissions.ops@nyu.edu](mailto:admissions.ops@nyu.edu) or call [212-998-4500](tel:212-998-4500).
