

The stl files can be sent to a 3D printing company like sculpteo.com

On sculpteo the material to use is “Plastic” – in whatever color is liked best. It won’t work with “Polished Plastic”!

The packages always contain all (3D printed) parts used for this component as described in the following table.

pro_PS_20121116	Power box
pro_TI_12_20121022	12 terminators
pro_AS_20121022	A-splitter = 1 in / 5 out
pro_YS_20121022	Y-splitter = 1 in / 2 out
pro_HS_20121022	H-splitter = 1 in / 3 out
pro_XS_20121022	X-splitter = 1 in / 3 out
pro_b_short_20121022	Bone
pro_TBT_20121022	TBT joint
