New York City Girls Computer Science and Engineering Conference 2010

New York University Women In Computing (WinC) and Princeton University Graduate Women in Science and Engineering (GWISE) invite young women in 9th and 10th grade to the annual New York City Girls Computer Science and Engineering Conference. The program will give young women a taste of the tremendous creativity and innovation involved in computer science and engineering and show young women how these fields can help change the world.

Friday, April 30th, 2010, from 9 am – 4 pm
Kimmel Center- Rosenthal Pavilion, 10th floor
60 Washington Square South
New York University, New York, NY 10012

The event will include talks by women computer science and engineering professors, a workshop lead by female scientists from Google, talks and demos of exciting on-going research projects in computer science and engineering at Princeton and NYU, and an engineering design competition where girls will be challenged to construct structurally-sound towers using only spaghetti sticks and gumdrops. We will also discuss the prerequisites required for obtaining an education in computer science and engineering, as well as the undergraduate computer science and engineering experience. The goal of the program is to show young women that an education in computer science and engineering is both an attainable and rewarding goal.

Your school may nominate up to 8 girls to participate in this event. Teachers are welcome to attend (We prefer that teachers accompany their students to this event).

Please use this online form to RSVP for this event by April 15th: http://cs.nyu.edu/~wincweb/HS/. Make sure to include all of the required information such as the school name, teacher’s name and contact information (teacher’s email address and cell number), students’ names, grade years, and students’ email addresses. Registration will start on 3/22/2010 and it will end on 4/15/2010! Spaces fill up quickly, please register asap!

For more information, please contact us at wincgwise@cs.nyu.edu

This event is funded by Google and NYU’s Courant Institute of Mathematical Sciences!
